BASIC PERMANENT MAKE-UP COURSE

Further to your request regarding information on the training for Basic Permanent Make-up, I would like to confirm that in order to do the training you need to have some form of tertiary education i.e. health and skincare therapy, make-up artistry, nail technology, tattoo artistry or some medical or paramedical background. All my training courses have interim SAQA accreditation, through PAB, which means they will be listed on the NQF (National Qualifications Framework). I have been doing permanent make up since 1990, am a member of the SPCP (Society of Permanent Cosmetic Professionals) and have the CPCP (Certified Permanent Cosmetic Professional) qualification. There are 4 options available:

OPTION 1

The cost is R25 000.00 per student, and includes the following:

- 60 hours of training plus 60 hours of case histories.
- 1 Mei-Cha Dynasty 2000 machine.
- 1 Carry case.
- 16 pigments and 1 rewetting solution.
- 1 Pigment Ring.
- 50 x 3 bar needles.
- 50 x 1 bar needles.
- 50 combo couplers.
- 50 needle holders.
- 50 mixing pots.
- 50 mixing sticks.
- 1 Blue Ice, 1 Ane-stop.
- 1 box Refresh.
- 1 box Celluvisc
- 10 gum guards.
- 1 colour wheel and chart
- 1 vernier, level and material swatches

OPTION 2

The cost is R28 000.00 per learner. This includes everything in option 1 except with the German Symphony I machine and accessories, and the needles come in boxes of 10, but no needle tips or couplers are needed. This machine is a rotary machine and only operates with a foot control and one speed which is 120 beats per second.

OPTION 3

The cost is R32 000.00 per learner. This includes everything in option 1 except with the German Symphony II machine and accessories, and the needles come in boxes of 10, but no needle tips or couplers are needed. This machine is a rotary machine with a full power unit using speeds up to 150 beats per second.

OPTION 4

The cost is R42 000.00 per student and includes our Rolls Royce digital machine from Germany “Medium-Tech” Aella with everything in Option 1, except the needles come in boxes of 15, and you do not need separate needle tips or couplers.

These prices are package prices and if all items were paid for individually it would cost you over 15% more.

You will be required to organize models for the training course as listed in the daily timetable below:

The models can double up i.e. one model can have two or three areas done. Your brow models must have as little hair as possible otherwise it is difficult to see the technique on very thick brows. Please be aware that this training cannot be done if you do not organize models. You are given home work at the beginning of the course and must be handed in by the end of the course.

Please also note that you require a 35mm macro lens camera or a digital camera to take before and after photographs of your clients.

Before receiving your certification, you will have to complete a portfolio of evidence which consists of ten case histories in each area.
